Delivering Solutions for Metal Working Customers

**our services are designed
to meet any challenge**

Whether you are a corporate buying authority for a large multi-location company, a manufacturing engineer at a local plant or a purchasing manager responsible for implementing procurement strategies, you need the best products and the most reliable and advanced services.

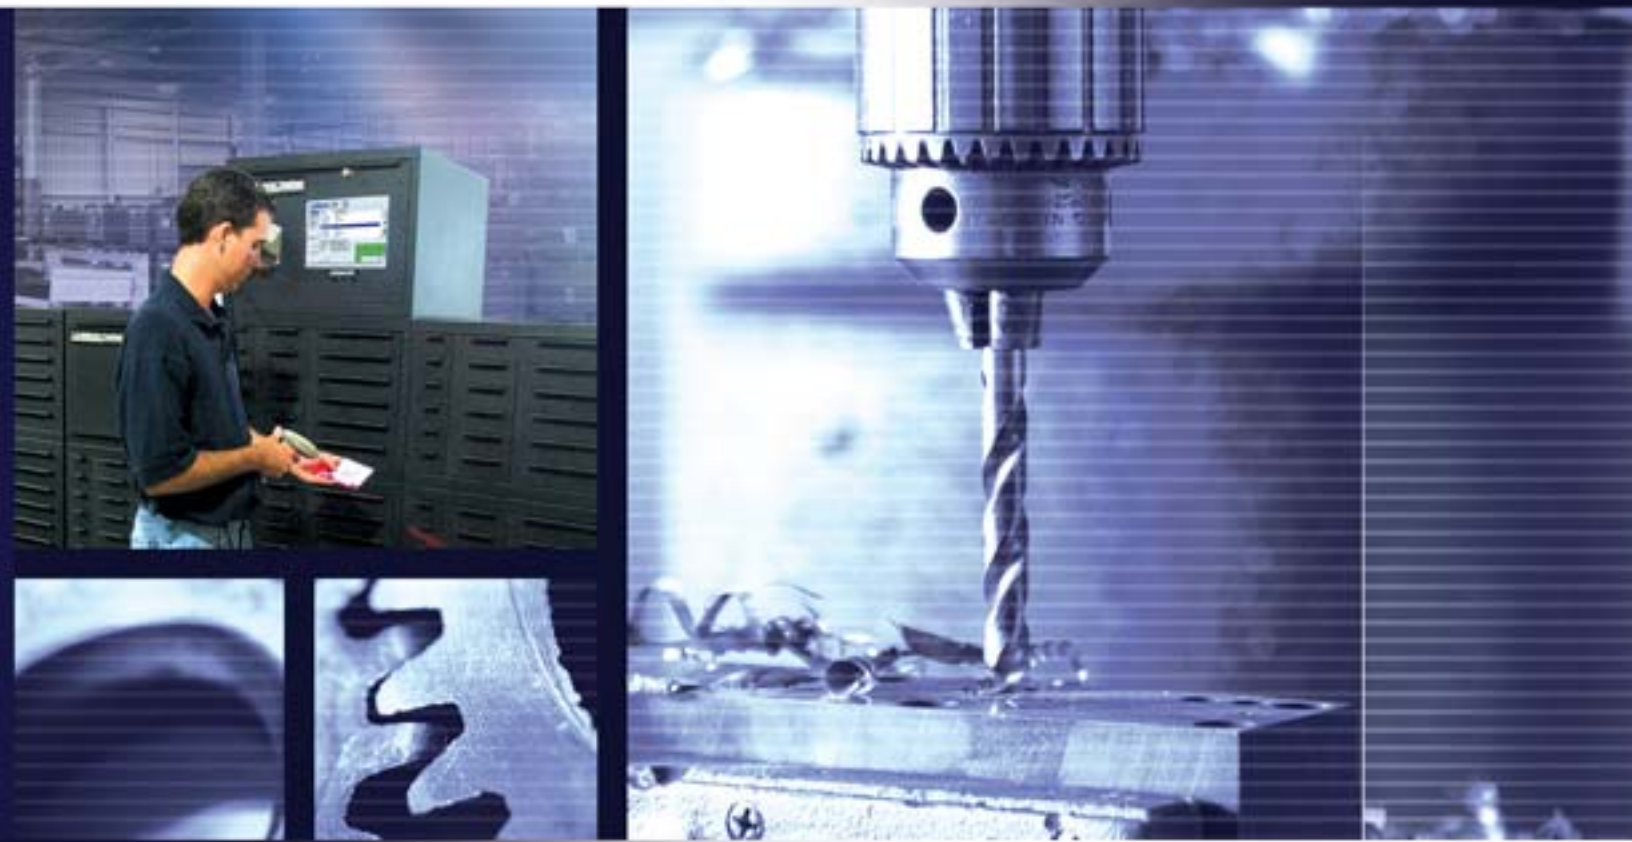

Regardless of your role within your company, you and your company probably require:

- **Uniform, competitive pricing**
- **State-of-the-art reporting**
- **Outstanding technical support**
- **Rapid, Effective implementation**
- **Documented cost savings, year after year**
- **Management reporting**

Our services are designed and tailored to meet any challenge. Every customer has different needs and objectives for a procurement program. Cline Tool responds with a complete range of products and services to meet your specific requirements.

Cline Tool provides programs for:

- **Tooling**
- **Abrasives**
- **Special Tooling**
- **Gaging**
- **Misc. Industrial Supplies**
- **Overflow Production Machining**

plan to meet **your** procurement requirements

The objective of this program is to deliver "lower overall cost." We expect to achieve this through a combination of reduced unit cost, increased productivity, summary invoicing, and reduced obsolescence.

We use a quick and effective implementation process. The faster the launch of a new agreement the sooner you can capture savings opportunities.

Plan to meet your procurement requirements:

Up front Planning

- **Analysis of your current requirements**
- **Development of a comprehensive strategy**

Analyze supply chain

- **Supplier quality and technical support**
- **Supplier cost management performance**
- **Supplier alignment with requirements**

Deliver product to the right place at the right time

- **Electronic vending equipment**
- **Can Ban systems**
- **Bar coding**
- **Tool regrind and repair services**
- **On site tool crib management**

Technical Support

- **Recommend Tooling and process improvements**
- **Provide documented tool testing**
